Medium impact on score

Environment

Medium impact on score

↗ **77**/100

Environment | Policies

High impact on score

↗ **75**/100

A policy is a set of objectives that addresses specific sustainability issues. It shows a company's intention to reduce impact, mitigate risk or improve performance.

Strengths

Environmental policy on energy consumption & GHGs
Environmental policy on product use
Quantitative objectives set on energy consumption & GHGs
Comprehensive policy on a majority of environmental issues
Environmental policy on water
Environmental policy on customer health & safety
Environmental policy on product end-of-life
Environmental policy on materials, chemicals & waste
Quantitative objectives set on water

Environment | Endorsements

Low impact on score

↗ **100**/100

Endorsements are your company's public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Strengths

Endorsement of external initiative on environmental issues
--

Endorsement of the Science Based Targets initiative - Targets Set

Endorsement of the RE100 initiative

Endorsement of the United Nations Global Compact (UNGC)

Environment | Measures High impact on score

● → 100/100

Measures are your company's actions to support your sustainability policies and commitments.

Strengths

Training of employees on energy conservation/climate actions

Other actions to reduce energy consumption/GHG emissions

Water audit

Provision of information on proper disposal of product to promote circular material flow

Programs to label, sort, and recover electrical and electronic components of products

Provision of information on efficient use, storage, and maintenance to extend product life

Company-specific emergency preparedness and response procedure regarding customer health and safety

Mapping of waste streams

Dedicated feedback channel on health & safety issues of products

Implementation of a rainwater harvesting system

Wastewater quality assessment

Technologies or practices to recycle or reuse water

Purchase of verified carbon offset credits

Company awareness program for customers on health & safety issues associated with products/services

Studies on product environmental impact

Collaboration with external stakeholders for product end-of-life management

Design features for easy disassembling, remanufacturing, or recycling of products

Improvement of energy efficiency through technology or equipment upgrades

Purchase and/or generation of renewable energy

Reduction of the use or emissions of fluorinated greenhouse gases (e.g. HFCs, PFCs, SF6)

Use of waste heat recovery system(s) or combined heat and power unit(s)

Energy and/or carbon audit

Actions for labeling, storing, handling and transporting hazardous substances

Environmental emergency measures in place

Training employees to safely handle and manage hazardous substances

Specialized treatment and safe disposal of hazardous substances

Actions or training to raise employee awareness on waste reduction & sorting

CONFIDENTIAL — Restricted Use (Apr 11 ce AB)

- Reduction of energy consumption of IT infrastructure
- Reduction of internal wastes through material reuse, recovery or repurpose
- Internal sorting & disposal of waste according to waste streams

Environment | Certifications

Medium impact on score

● → 100/100

Certifications confirm your compliance with international standards (for example, ISO 14001). They must be issued by an external certification body.

Strengths

- Environmental management system certification covers more than 75% of the assessed scope
- ISO 14001 certified
- ISO 50001 certified

Environment | Coverage

● 100/100

Coverage means the level of deployment of measures and certifications throughout your company. It's a multiplying factor. The higher it is, the higher score will be given to the Measures and Certifications indicators.

Strengths

- Supporting documents show an exceptional level of coverage of environmental actions or certification throughout company operations

Environment | Reporting

Medium impact on score

● ↗ 50/100

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

- Parent company reports to CDP
- External assurance or verification of sustainability reporting
- Reporting on total energy consumption
- Reporting on total weight of waste recovered
- Reporting on total water consumption
- Reporting on total gross Scope 1 GHG emissions
- Reporting on total gross Scope 2 GHG emissions (market or location based)
- Standard reporting on environmental issues
- Reporting is formally aligned with a reporting standard on environmental issues
- Company communicates progress towards the Sustainable Development Goals (SDGs)
- Materiality analysis in sustainability reporting
- Reporting on total amount of renewable energy consumed
- Reporting on total weight of hazardous waste

CONFIDENTIAL — Restricted Use (Apr 11 Ge AB)

Reporting on total amount of water recycled and reused

Reporting on total weight of non-hazardous waste

Total gross Scope 2 reporting value confirmed in supporting documentation

Total gross Scope 1 reporting value confirmed in supporting documentation

Reporting with reference to the GRI Universal Standards

Declares none of the sites/operations located in or near biodiversity-sensitive areas (not verified)

Improvement areas

Low priority Declares reporting on the percentage of WEEE collected out of total EEE placed on the market, but no supporting documents available

Low priority Declares reporting on total gross Scope 3 downstream GHG emissions, but no supporting documentation available

Low priority Declares reporting on total gross Scope 3 GHG emissions, but no supporting documentation available

Labor & Human Rights High impact on score ● ↗ 70/100

Labor & Human Rights | Policies High impact on score

● → 50/100

A policy is a set of objectives that addresses specific sustainability issues. It shows a company’s intention to reduce impact, mitigate risk or improve performance.

Strengths

Labor & human rights policy on social dialogue
Labor & human rights policy on working conditions
Labor & human rights policy on employee health & safety
Labor & human rights policy on child labor, forced labor & human trafficking
Standard policy on a majority of labor or human rights issues
Labor & human rights policy on career management & training
Labor & human rights policy on diversity, equity & inclusion

Improvement areas

Low priority	No quantitative target set on living wage
Low priority	No quantitative target on labor and human rights issues

Labor & Human Rights | Endorsements Low impact on score

● ↗ 100/100

Endorsements are your company’s public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Strengths

Endorsement of the Women's Empowerment Principles (WEPs)

Endorsement of the United Nations Global Compact (UNGC)

Labor & Human Rights | Measures High impact on score

● → 100/100

Measures are your company's actions to support your sustainability policies and commitments.

Strengths

Remediation procedure in place for victims of discrimination and/or harassment

Collective bargaining agreement on working hours, overtime, or leaves

Collective bargaining agreement on diversity, discrimination and/or harassment

Collective bargaining agreement on career management & training

Employee representatives or employee representative body (e.g. works council)

Awareness training regarding diversity, discrimination, and/or harassment

Actions in place to protect young workers

Awareness training on child labor, forced labor and human trafficking

Employee health and safety emergency action plan

Actions to address stress and psychological wellbeing in the workplace

Equipment safety inspections or audits

Skills development program tailored to employee needs

Training of employees on health and safety risks and best working practices

Collective bargaining agreement on employees' health & safety

Employee health & safety risk assessment

Age verification of candidates before hiring

Monitoring of internal controls and effectiveness of actions taken to prevent child labor, forced labor and/or human trafficking

Grievance mechanism on child labor, forced labor and/or human trafficking issues

Remediation procedure in place for identified victims of child labor, forced labor and/or human trafficking

Regular employee health check-up

Complaints procedure in place for employees to report on occupational health and safety issues

Actions to control hazardous substance exposure

Regular assessment of individual performance

Individual development and career plan for all employees

Actions to promote internal mobility

The company declares its main operation(s) is located in a region where the right to freedom of association is not restricted by local law/regulation (not verified)

Actions to promote gender inclusion in the workplace

Employee satisfaction survey

CONFIDENTIAL - Restricted Use (Apr 11 ce AB)

Health care coverage of employees in place

Compensation for extra or atypical working hours

Bonus scheme related to company performance

Women development, mentorship, and/or sponsorship programs in place

Grievance mechanism on discrimination and/or harassment issues

Actions to prevent discrimination during recruitment phase

Employee stock ownership plan (not restricted to executive level)

Family Friendly programs (FFPs) implemented (e.g. parental or care leaves, childcare services or allowances)

Actions to prevent workplace harassment

Flexible organization of work (eg. remote work, flexi-time)

Improvement areas

Low priority Declares measures on living wage, but no supporting documentation available

Labor & Human Rights | Certifications Medium impact on score

● ↗ 100/100

Certifications confirm your compliance with international standards (for example, ISO 14001). They must be issued by an external certification body.

Strengths

Labor and human rights management system certification covers more than 75% of the assessed scope

ISO 45001 certified

SA8000 certification

Labor & Human Rights | Coverage

● 100/100

Coverage means the level of deployment of measures and certifications throughout your company. It's a multiplying factor. The higher it is, the higher score will be given to the Measures and Certifications indicators.

Strengths

Supporting documents show an exceptional level of coverage of labor and human rights actions or certification throughout company operations

Labor & Human Rights | Reporting Medium impact on score

● ↗ 75/100

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

Reporting on the percentage of women employed in relation to the whole organization

External assurance or verification of sustainability reporting

Reporting is formally aligned with a reporting standard on labor and human rights issues

Reporting on number of average training hours per employee

- Reporting on percentage of employees from minority and/or vulnerable groups at top management level
- Comprehensive reporting on labor and human rights issues
- Reporting on the percentage of employees from minority and/or vulnerable groups in the whole organization
- Company communicates progress towards the Sustainable Development Goals (SDGs)
- Materiality analysis in sustainability reporting
- Reporting on number of days lost to work-related injuries, fatalities and ill health
- Reporting on number of recordable work-related accidents
- Reporting on the percentage of women at top management level
- Reporting with reference to the GRI Universal Standards

Improvement areas

Low priority

No information on reporting on ratio of the annual total compensation of the highest paid individual, to the median annual total compensation for all employees

Low priority

Declares reporting on living wage, but no supporting documentation available

Ethics Medium impact on score ● ↗ 78/100

Ethics | Policies High impact on score

● ↗ 100/100

A policy is a set of objectives that addresses specific sustainability issues. It shows a company's intention to reduce impact, mitigate risk or improve performance.

Strengths

Exceptional policy on ethics issues
Policies on corruption
Policy on fraud
Disciplinary sanctions to deal with policy violations
Employee signature acknowledgement of ethics policies
Policy on information security
Policy on money laundering
Policy on conflict of interest
Dedicated responsibility for ethics issues

Ethics | Endorsements Low impact on score

● → 75/100

Endorsements are your company's public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Strengths

- Endorsement of external initiative on ethics issues
- Endorsement of the United Nations Global Compact (UNGC)

Ethics | Measures High impact on score

● → 100/100

Measures are your company's actions to support your sustainability policies and commitments.

Strengths

- Specific approval procedure for sensitive transactions (e.g. gifts, travel)
- Corruption risk assessments performed
- Information security risk assessments performed
- Whistleblower procedure for stakeholders to report information security concerns
- Awareness training to prevent information security breaches
- Information security due diligence program on third parties in place
- Whistleblower procedure for stakeholders to report corruption and bribery
- Measures for gaining stakeholder consent regarding the processing, sharing and retention of confidential information
- Awareness training performed to prevent corruption
- Audits of control procedures to prevent corruption
- Audits of control procedures to prevent information security breaches
- Incident response procedure (IRP) to manage breaches of confidential information
- Measures to protect third party data from unauthorized access or disclosure

Improvement areas

- Low priority No conclusive documentation regarding an anti-corruption due diligence program on third parties

Ethics | Certifications Medium impact on score

● → 75/100

Certifications confirm your compliance with international standards (for example, ISO 14001). They must be issued by an external certification body.

Strengths

- ISO 27001 certified (certification of information security management system)
- Specific certification on ethics

Ethics | Coverage

● 100/100

Coverage means the level of deployment of measures and certifications throughout your company. It's a multiplying factor. The higher it is, the higher score will be given to the Measures and Certifications indicators.

Strengths

Longi wins US patent invalidation case against Korea's Hanwha

renewablesnow.com | 16 Jun 2022

(SHA:601012), or Longi Solar, announced today that the US Court of Appeals for the Federal Circuit has issued a decision that favours the Chinese solar module maker in its patent invalidation case against Hanwha Q Cells. The court has upheld the US Patent and Trademark Office's (USPTO) previous "Invalidation Decision" in relation to Hanwha's US patent US9893215B2, Longi Solar said in a statement, adding that it has now won both the International Trade Commission (ITC) litigation and the patent invalidation case (IPR) against Hanwha in the US.

Light punishment! Longi Hydrogen Energy and Hopewind Electric were each fined 700,000 yuan (CN)

cn.chinadaily.com.cn | 14 Oct 2024

China Daily, Beijing, October 14 (China Daily) - On September 30, the State Administration for Market Regulation issued an administrative penalty decision on the case of Xi'an Longi Hydrogen Energy Technology Co., Ltd. and Shenzhen Hopewind Electric Co., Ltd. for illegally implementing a concentration of operators by setting up a joint venture without reporting in accordance with the law. This is the third penalty decision on illegal implementation of a concentration of operators announced by the State Administration for Market Regulation after the implementation of the newly revised Anti-

Sustainable Procurement

Medium impact on score

77/100

Sustainable Procurement | Policies

High impact on score

75/100

A policy is a set of objectives that addresses specific sustainability issues. It shows a company's intention to reduce impact, mitigate risk or improve performance.

Strengths

Policy on conflict minerals issues

Comprehensive sustainable procurement policies on both social and environmental factors

Sustainable Procurement | Endorsements

Low impact on score

75/100

Endorsements are your company's public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Strengths

Endorsement of external initiative on sustainable procurement issues

Endorsement of the United Nations Global Compact (UNGC)

CONFIDENTIAL - Restricted Use (Apr 2024 - AB)

Improvement areas

Low priority Claims endorsement of specific international or industry sector initiatives on conflict minerals issues, but information could not be verified

Sustainable Procurement | Measures **High** impact on score

● → **100**/100

Measures are your company's actions to support your sustainability policies and commitments.

Strengths

- Actions to work with businesses owned by minorities/vulnerable groups in the supply chain
- Procedure to disengage with a non responding supplier (after several attempts) on conflict minerals issues (i.e. escalation steps)
- Investigation or traceability system of the supply chain (smelters, trades, mines) on conflict minerals due diligence (e.g. third party on site audit in place)
- Actions to work with women-owned businesses in the supply chain
- Worker voice surveys or other advanced supplier monitoring practices (e.g. second tier audits)
- Sustainable procurement objectives integrated into buyer performance reviews
- Integration of social or environmental clauses into supplier contracts
- Regular supplier assessment (e.g. questionnaire) on environmental or social practices
- Sustainability risk analysis (i.e. prior to supplier assessments or audits)
- Training of buyers on social and environmental issues within the supply chain
- Selected suppliers required to fill Conflict Minerals Reporting Template (CMRT)/other customized conflict mineral-related questionnaire
- Detailed conflict minerals risk analysis (per product or purchasing category) across the supply chain (e.g. manufactures)
- Performing suppliers on environmental and social issues have access to unique incentives (e.g. supplier awards, preferred supplier program, access to RFPs)
- On-site audits of suppliers on environmental or social issues
- Global supplier diversity program in place
- Supplier sustainability code of conduct in place
- Capacity building of suppliers on environmental or social issues (e.g. corrective actions, training)
- Grievance mechanism allowing any interested parties to voice and record concerns on conflict minerals
- Other actions on conflict minerals

Improvement areas

Low priority Declares conducting a formal assessment of suppliers' progress with regards to REACH requirements, but no supporting documentation available

Sustainable Procurement | Certifications **Medium** impact on score

● → **75**/100

Certifications confirm your compliance with international standards (for example, ISO 14001). They must be issued by an external certification body.

Strengths

SA8000 certification

Sustainable Procurement | Coverage

● 100/100

Coverage means the level of deployment of measures and certifications throughout your company. It's a multiplying factor. The higher it is, the higher score will be given to the Measures and Certifications indicators.

Strengths

Supporting documents show an exceptional level of coverage of sustainable procurement actions throughout company operations or supplier base

Sustainable Procurement | Reporting

Medium impact on score

● → 75/100

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

- Publication of conflict minerals related reporting
- External assurance or verification of sustainability reporting
- Comprehensive reporting on sustainable procurement issues
- Reporting is formally aligned with a reporting standard on sustainable procurement issues
- Company communicates progress towards the Sustainable Development Goals (SDGs)
- Materiality analysis in sustainability reporting
- Reporting with reference to the GRI Universal Standards

Improvement areas

Low priority Declares reporting on total gross Scope 3 upstream GHG emissions, but no supporting documentation available
